

PRESS RELEASE

TP3 Global Expansion Continues in Southern Europe

TP3 Global's European expansion continues with the appointment of Brigitte Jacquot as Sales Director for South Europe.

Bringing over 25 year's experience in the Transportation and Logistics Industry, having worked on four continents with organisations including DHL, DSV and Kuehne + Nagel, the appointment will accelerate TP3's expansion throughout Southern Europe and North Africa.

Brigitte Jacquot is the latest addition to TP3 Global's Southern European team following Luc Ducaroir who joined as Director based in Paris last year to establish local distribution of SilverSkin™ thermal pallet covers throughout the region.

TP3 Global's SilverSkin™ range of thermal pallet covers are qualified as GDP compliant and designed for passive protection of cold chain and controlled room temperature shipments.

Brigitte states that "My mission is to develop the TP3 Global product portfolio throughout South Europe and North Africa increasing our global presence, which is now on five continents, serving the Life Science and Freight Forwarding Industries. With SilverSkin™ thermal covers available close to Charles De Gaulle airport, a key strategic location for many customers, our aim is to provide easy access to pharmaceutical thermal protection locally."

TP3 Global is committed to growing its international network to support customers in meeting compliance and GDP regulation challenges on a local basis.

Clive Wheeldon, Chief Executive Officer stated "Brigitte has a wealth of knowledge and experience developed over many years in the Logistics Industry and in joining the team will strengthen our ability to provide precisely what our customers require of us, where they require it.

We are delighted that Brigitte has decided to join the TP3 Global family and look forward to supporting her customer focused role."
